

Pownal Highway Dept.

September 2019

Road Report

- We are currently doing our fall grading; we are in North Pownal at the time. We have 40 miles of dirt roads to cover and we have just barley started.
- We are also ditching currently on Skiparee Rd.
- We have culverts to change, Upper Skiparee which will be Monday. We will have a small section of the road closed for most of the day.
- We will be working on the Main Street Bridge trying to seal up some of the bigger holes so keep posted for delays.
- We hopefully be blacktopping before the end of the month on Maple Grove Rd., Burrington Rd. and Puddingstone Rd. I will keep you posted on the times that they are going to start.
- We will also be putting up winter sand and putting in the sand sheds as soon as our Act 250 permit clears which will be soon I have been told.
